

Electronics Drop-off at Hilmar Unified

From the Hilmar Times 01/01/2009

Don't toss that old technology in the trash – take it to the Hilmar Unified School District and have it recycled for FREE!

The school district is teaming with Fresno-based Electronics Recyclers International to provide a free opportunity to dispose of old computers, monitors, printers, televisions, and other unusable or unwanted electronics. This effort will also provide much-needed funds for the Hilmar Unified School District Technology Department.

It is illegal to simply throw an unwanted television or computer monitor in the trash in the state of California. Electronics items have toxic elements in them that are environmentally hazardous when dumped into landfills.

This event runs from 10 AM to 4 PM, Saturday, January 10, 2009 at the Hilmar Unified Transportation Department, located at 7807 N. Lander Avenue, in Hilmar.

For more information, call Larry Rego at 209-669-2905 or send emails to recycle@hilmar.k12.ca.us.
